

B
Q1
from the formation. [Another objective is to be able to easily place] The screen is easily placed in the desired location[. This objective is met in one way] by using coiled tubing which can be preperforated for a support for the screen. [Another objective is to protect] The screen is protected during delivery to the desired location in the wellbore by providing a disposable or removable outer cover which can be disposed of after proper location on the screen in the wellbore.

IN THE SPECIFICATION

On page 6, line 10, remove "34" and insert -- 22 --.

IN THE CLAIMS

Sub B1
Q2
1. (amended). A wellbore completion tool assembly, comprising:
a perforated body made of an expandable material;
a stretchable filter assembly [mounted over] secured to said perforated body so as to cover the perforations in said body;
a tool acting on said body to expand it and said filter mounted around it to allow said filter to move toward the surface defining the wellbore.

Q2 Sub B2
2. (amended) [The assembly of claim 1, further comprising:]
A wellbore completion tool assembly, comprising:
a perforated body made of an expandable material;
a filter assembly mounted over said perforated body so as to cover the perforations
in said body;
a tool acting on said body to expand it and said filter mounted around it to allow said
filter to move toward the surface defining the wellbore;
a protective cover for said filter assembly which is removable downhole.

7. ^β (amended). The assembly of claim 1, further comprising:

Q3 a reinforcement between said body and said filter assembly to support said filter assembly in the area of said body perforations, said reinforcement expandable with said body and filter assembly.

Please cancel claim 6 without prejudice.

In claim 7, line 1, remove "6" and insert -- 1 --.

In claim 8, line 1, remove "6" and insert -- 1 --.

In claim 9, line 1, remove "6" and insert -- 1 --.

In claim 10, line 1, remove "6" and insert -- 1 --.

SUB37 14. (amended) ~~A method of well completion, comprising:~~

Q4 running in a tubular body with perforations and a stretchable filter assembly [mounted over] secured to the perforations on the body;
expanding the tubular body downhole

Please cancel claim 17 without prejudice.

In claim 20, line 1, remove "17" and insert -- 14 -- therefor.

REMARKS

Applicants have carefully reviewed the lengthy Office Action mailed July 5, 2000.

With regard to the comments on the drawings, the drawings will be revised to delete reference to item 34 since it is redundant with item 22. The specification has been revised to delete item 34 in favor of item 22 to address paragraph 1 of the Office Action. The drawing objections in paragraph 2 are traversed because the items 26, 14 and 12 are illustrated in figures 3 and 4 of the drawings and are referred to as being in those figures in the specification. The structural details
